Fountain Grove Conservation Area

About This Area

Fountain Grove Conservation Area sits in the floodplain of the Grand River and serves as an important migration stop for a variety of wildlife. It also plays an important role in providing wintering habitat for Canada geese of the Eastern Prairie Population.

The area was the first wetland area developed by the Conservation Commission and has grown from its original 3,433 acres in the 1940's to its present size of 7,906 acres.

The area is managed to provide diverse wetland habitats, including marshes, bottomland forests, grain fields, oxbow lakes and sloughs. Bald eagles are commonly seen on the area throughout the winter.

Rules and Regulations:

Area hours: Open daily from 4 a.m. to 10 p.m. Camping, hunting, fishing, dog training and launching and landing boats are permitted at any time when authorized.

- No littering. Waste containers may be used only for disposal of trash generated on area.
